Gary,

Thanks for the explanation. I will let you know if I have any comments or questions as I go through them.

Thanks.

Satya,

Yes. The Power Point slides I just sent are the most updated, but are nearly the same as the presentation PDF; I will continue to add slides and/or additional info to slides to clarify them & cover all of the various aspects of the site. For example, I only have two of the FS alternatives covered by the slides now – I will be adding slides for the rest as I go along. One other thing you may have noticed, the pdf slide of the crab samples had a picture showing collection of the crabs, but for some reason just that picture was about 23 megs, so I removed it from that slide so I could email it.

As you look through the slides, please let me know any questions that come up – they may point to the need for either additional new slides or more info on the slides there now.

Thanks,

Gary,

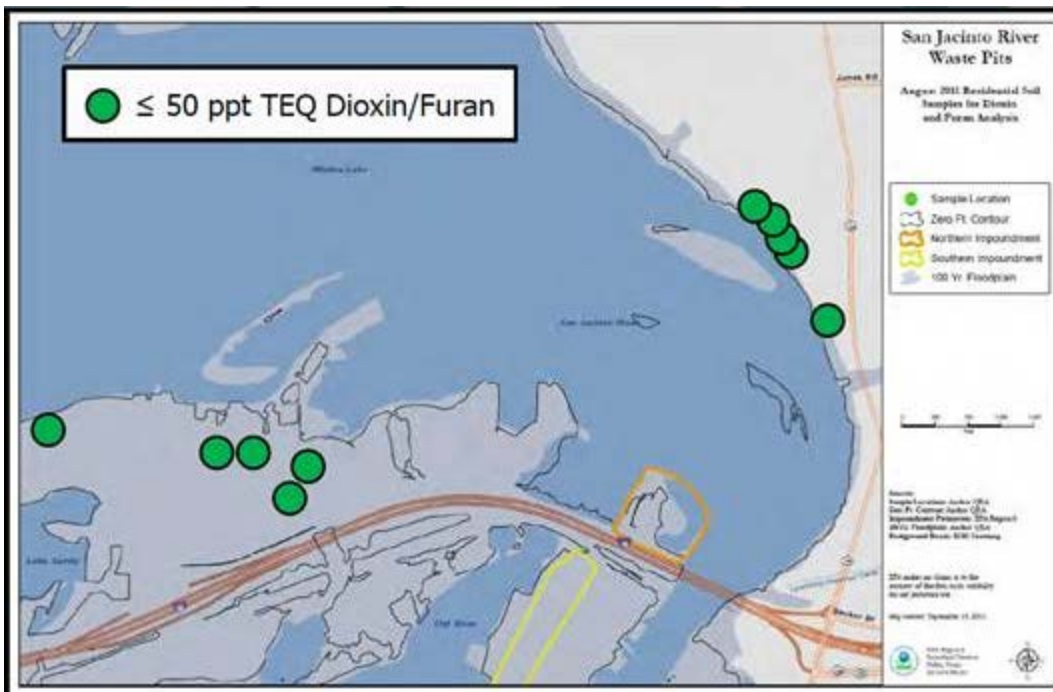

Thank you very much! I greatly appreciate it. I combined all files and created a single file. I noticed that there are some differences between the pdf file you provided for the Open House and the files you sent today. Do Power Point slides supersede. For example, Slide 23 in Power Point is:

9672272

In the pdf file, it is:

There is no contradiction, but the Power Point slide has more information. Thanks again.

Good morning Gary,

May I use some of these slides for a short presentation on this site during our Section meeting? If so, could you pl. e-mail me the Power Point file? I understand that it is too large to be sent in a single e-mail; you may please send it in parts. Thanks a lot in advance!

Regards,

Satya

Satya,

Here is the entire long version; the presentation part for the open house meeting will be the first 13 slides only. I have the rest for backup to answer any questions on other site issues. I may also add some additional slides, but this is what I have now.

Erika-  
thanks for the prompt response. Satya will need to send the request through EPA, who then sends us a request. We only set up accounts through that path.

Satya, please contact Gary Miller with your request. [miller.gary@epa.gov](mailto:miller.gary@epa.gov)

Thanks,

Satya,  
I do not have any users registered under your name or email address, so it appears that you were not setup with an account. I can certainly create one for you once I get approval from our project manager though.

Jennifer,  
Do you want Satya to be setup with a new wiki account for the SJRWP project? Please advise.

Thanks!
